

VISUALSKIES
INTERACTIVE AERIAL CONTENT

VS20171R1 GLENSIDE

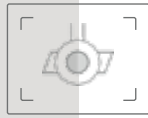

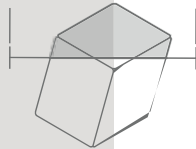

PHOTO & VIDEO

Delivering crystal clarity imagery from any angle. Our 8K aerial photos or 6K RAW videos are always tailored to your project's needs, whatever the requirement.

TIME-LAPSE

We provide long or short duration time-lapse camera systems, capturing every moment of your project.

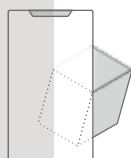

3D SCANNING

Captured from the air and ground, we provide fully textured, scaled, accurate and photorealistic environment models, giving your audience the complete picture.

VIRTUAL REALITY

VSScout has been designed as a tool-kit to aid scouting and exploring locations in a radically immersive manner, whilst simultaneously collecting rich geomatic data that can be utilised across industries enabling remote access for all

AUGMENTED REALITY

Our cutting-edge Augmented Reality services bring environments to life with immersive content, merging virtual worlds with our own to provide unique, interactive experiences.

Jenny Clark
Platinum 3D

VS20171R1 GLENSIDE

Dear Jenny,

Thank you for inviting us to provide services on this exciting project. We are delighted to be involved and look forward to realising your aspirations. Following on from our recent communications, I have reviewed the information supplied in association with our own experience of the information required to produce the following service(s):

1. X3 days terrestrial LiDAR
2. X2 days aerial LiDAR
3. GNSS survey and control points
4. Data registration and decimation
5. Delivery as pointclouds (format tbd) - BUILDING EXTERNALS ONLY

Fee Basis

For the above service(s) we would propose a fee of:

GBP 14,050.00 ex VAT

A breakdown of this fee can be found on the final pages.

The fee is exclusive of any expenses. Invoices are to be paid 28 days from the date of data release. Where applicable the fee will be payable on a monthly basis. A 50% deposit is required to secure the job.

Change of scope

Should the scope of the project vary considerably we withhold the right to adjust our fees to suit. Any additional services required outside of the scope of that described within this letter are to be charged at £90 per hour per person plus the cost of any equipment use. This includes alterations to any released data.

Copyright

VISUALSKIES retains the right to use captured data as part of their marketing material.

Weather conditions

Where flying, legally we cannot fly in unsafe conditions. These include rain and wind speeds over 25mph. Where the weather is unsuitable, we withhold the right to retain the 50% deposit and reschedule.

Assumptions

All safety concerns, in accordance with the CAA/ Local aviation authority and The Health and Safety Executive or local body regulations can be satisfied.

Location permissions can be obtained

Full access to the campus required. Students to be alerted to drone use.

The project team will need to overnight close to the location.

This document forms the basis of our appointment.

Yours sincerely

Ross Dannmayr

Director

for and on behalf of VISUALSKIES Ltd.

I/we confirm that the above proposals are acceptable and form the basis of the appointment of VISUALSKIES on this project.
